Ted Richardson Bursary was initially funded by the Wells Gray Community Forest Corporation **and managed by the Wells Gray Community Forest Society**, in 2020 the funds dedicated to this bursary were transferred to the District of Clearwater – Wells Gray Community Forest Commission. This commission has since been disbanded and the Ted Richardson Bursary Funds were transferred from the District of Clearwater to the Clearwater Secondary School. The Society continues to have representation in the decision making process. In 2025, the Ted Richardson Bursary was awarded to Micheal Shook \$1,000 attending TRU for Natural Resource Program, Reyna Connelly-Myhre \$1,000 attending Lethbridge Polytechnic for Natural Resource Compliance Program.

HIGHLIGHTS OF THE WELLS GRAY COMMUNITY FOREST SOCIETY GRANTS ALLOCATED IN 2025:

The following are examples of Four (4) projects that acquired funds from the Society's Spring and Fall granting cycles:

2025 Children's Art Festival (North Thompson Arts Council) - \$1,500

Grant Impact on the Organization:

The Children's Art Festival went off without a hitch after a six (6) year absence break it was a huge success.

The weather did not deter the event from pleasing an enthusiastic crowd of children and parents who took part in the activities. Not all the artists bought supplies specifically for the festival so the funds applied for were not utilized in full.

The artists and the participants (children) had a great time and the organization is already planning for next year. The organizers were able to host nine stations including:

- ❖ *Face Painting,*
- ❖ *Sock Puppets*
- ❖ *Clay*
- ❖ *Making Inukshuk*
- ❖ *Build a Story*
- ❖ *Acrylic Painting*
- ❖ *Music to listen to*
- ❖ *Mini music lessons*
- ❖ *Painting a dragon*

2025 Upper Clearwater Volunteer Fire Brigade - \$18,812.24

Grant Impact on the Organization:

The addition of a water tender has greatly improved the UCVFB's ability to suppress fires in that they can now move larger amounts of water rapidly in a vehicle that is more maneuverable and quicker to operate than their existing two fire trucks.

In combination with the 5,000-gallon water tanks and pumps previously funded by Wells Gray Community Forest Society, the new water tender will allow the Fire Brigade to deploy water to a smoldering road-side fire before it gets out of hand. It also allows for the Brigade to work on a more advanced fire to protect structures, people, and resources along roadsides.

Benefits to the Community:

The addition of the water tender to the UCVFB's inventory will aid the UCVFB to protect the Upper Clearwater community and its tourist industry. The UCVFB volunteers have been trained and are all familiar with the operation of the vehicle, and they expressed their appreciation as to how well and how easily the on-board pump works.

2025 Clearwater Collective Society - \$9,000

Grant Impact on the Organization:

Cruisin Clearwater - Clearwater is a classic car show hosted in the third weekend of August. During the weekend long event the organizers raise funds for The Clearwater & District Food Bank. Not only does the organization raise funds for their operation, but they also strive to bring business to local establishments, provide locals with a yearly event to look forward to, and it showcases Clearwater and area for potential returning tourists.

Classic Car - 2025

Benefits to the Community:

Clearwater Food Bank. They also provide other support elsewhere in the valley with their continued fundraising. The organizers believe that after completing their sixth (6) annual event, they have accomplished their goals to highlight the community and raise funds for the efforts. While they did not hit their target of \$9,000 to host the show, they know what they need to do for 2026 event and beyond.

Classic Car Rally 2025 - Enjoyed by all!

2025 Clearwater Paddling Society – youth kayaking / summer sessions: \$5,000

Grant Impact to the Organization

This year's funding had an immense impact on the club's ability to provide programming this year. The funding enabled the club to acquire more gear and safety equipment so that they could accommodate more people on the water. It allowed for more programs throughout the summer and extend their operating season. The financial support also allowed them to focus on creating a safe, inclusive environment that promoted both skill development and community building. The Club has expressed their sincere gratitude for the support.

Benefits to the Community

The funding allowed the Club to diversify their equipment so they could provide gear and programs to a larger group of people (having more sizes and styles). This allowed them to engage and grow the paddling community. Participants of all ages attended their evening sessions and they saw a greater participation and many more volunteers than last year. The Club was able to run two (2) youth camps experiencing a 40% increase in attendance from last year.

The group progressed immensely and are now comfortable paddling the Clearwater River and are thoroughly enjoying the sport. The support and teamwork this group shows each other is especially heart warming. Participants not only built kayaking skills but also developed connections with each other, many of the participants were able to borrow gear and go out with each other outside of organized sessions. It was pretty special to see locals become more confident and competent in navigating and appreciating the Clearwater River, a world-renowned kayaking destination.

Measurable Outcomes

- Increased membership - 65 memberships (up 35% from last year)
- Successfully engaged 45 members in our programs
- Evening session had attendance of 7-15 participants per night
- The youth camps had 8- 14-year-old boys (up 40% from last year), who showed excellent progress
- Volunteers doubled from last year to 18 volunteers
- A total of 250 on water volunteer hours
- Eight board members also volunteered to plan, organize, and run all programs
